

The Transportation Intermediaries Association (TIA) is working to help connect returning and disabled veterans with employers seeking quality employees.

To date, nearly 60 TIA members in 30 states and Canada have signed on to hire veterans.

The third party logistics industry is growing and offers a rewarding future. If you are a veteran or employer interested in taking part in this initiative contact Jay Ruais (ruais@tianet.org 703-299-5713).

TIA is the premier professional and educational organization of the \$162 billion third party logistics industry.
